

THE 3 BURNING QUESTIONS

YOU NEED ANSWERED BEFORE LEARNING TO FLY.

BE IN CHARGE

Learning to fly is your journey, so take charge and turn these questions into an aviation adventure where you define the answers. Fly regularly and master the skies or take it easy and enjoy the ride. Flying is fun, and learning to fly... well that is life changing.

WHAT DOES IT COST?

Not as much as you might think. The Recreational Pilot Licence "RPL" (your first key to freedom in the skies) costs on average \$9,400-\$15,000 to complete.

HOW LONG WILL IT TAKE?

How far you want to take your flying is 100% up to you. But once started you can expect to fly solo after around 15 hours and hold an RPL after 25-45!

IS IT DIFFICULT?

Some of our students were Flying before they could drive! Flying combines manipulative skills with theoretical knowledge lending it to many different styles of learning.

START FLYING FOR \$145.00

Your aviation adventure begins with a Phil Unicomb Aviation "Hands on Action Flight"! For \$145.00, you will experience an unforgettable introduction to what it is like to learn to fly. This includes a ground briefing with your Flight Instructor followed by a 30 minute flight where you will take the controls!

Get in touch with our team by phone or email to book your Hands on Action Flight today.
